Dear Commission members,

Stewart School has decided to close Stewart School's branch location on Southeastern Ave. This will be effective as of December 20, 2008. There will be one student, Christina Stainbrook, who will move back to our main location after that date.

We believe that this move will make the best use of all of our talented instructors and other resources in order to offer the best services to our students and clinic floor guests.

We have not closed the door on the possibility of opening a branch location in the future. We are looking into securing a location big enough so that entire classes could transfer together. We appreciate the policy and rule adjustments you have made on behalf of branch school locations, and look forward to working with you on improving our industry.

We will mail in our license back to you on 12/20/08. Let us know if we owe any additional fees and if so what amount.

Sincerely,

Matt Fiegen, Owner
Angela Hansen, School Director
Stewart School
